

# Maximize Your Board Potential:

A **FREE** Nonprofit Board Capacity Building Training Series and Community of Practice

High quality, effective boards are critical to the overall success of any nonprofit organization. However, assembling and training board volunteers that can maintain forward momentum is often challenging.

In this **FREE** series sponsored by the Sunflower Foundation and the Kansas Health Foundation, **staff and board volunteers from nonprofit organizations of all sizes** are invited to join subject matter experts and peer networks for eight virtual workshops and “community of practice” sessions to gain knowledge, skills, and support that can strengthen long-term capacity to accomplish your mission. In addition to this learning series, **free technical assistance** will be made available to attendees to help you apply what you learn in your own organization.

**PRE-REGISTRATION for each session is required.** You may sign up for any (or all!) of the one-hour sessions in the series by clicking on the date(s) listed below. **Can't make it live?** Access to session recordings will be available. **Got questions?** Contact [vanessa.lohf@wichita.edu](mailto:vanessa.lohf@wichita.edu)

## Virtual Workshops

*Learn from Subject Matter Experts*

[February 21, 2025](#)

**Strategy in Governance:**  
Let's Talk about Boards!

[March 7, 2025](#)
